SUMMARY :

Experienced Software Developer with expertise in web and app development, specializing in front-end technologies. Possesses a deep understanding of modern development frameworks, design principles, and user-centered experiences. Collaborative team player with excellent communication skills, committed to delivering high-quality, innovative solutions.

TECHNICAL SKILLS :

- ❖ **Frontend :** JavaScript**,** React js**,** React Native, Flutter, Next15**,** Redux**,** TypeScript**,** Tailwind

- ❖ **Backend :** Node.js**,** Express.js**,** TypeScript**,** API's Integration

- ❖ **Devops:** Docker(basics), git and github, jira and slack

- ❖ **Database :** MongoDB, MySql, AWS(basics)

EXPERIENCE :

Software Developer(SD) - Bright Digital Gold **|** November 2022 - Present
- ❖ Developed a **Next.js / React** website for financial transactions, including functionalities for buying, selling, delivering, and gifting.
- ❖ Created a **mobile application in Flutter** to mirror the website's functionalities, ensuring a seamless user experience across platforms.
- ❖ Integrated multiple **APIs** to facilitate secure and efficient financial transactions.
- ❖ Utilized modern technologies and best practices to enhance performance, security, and user engagement.
- ❖ Developed and optimized various sections, resulting in a 20% increase in user retention, including profile, transaction, buy and sell, and address and bank details pages.
- ❖ Calculated coupon discounts, increasing revenue by 10%.

PROJECTS :

[LINK] Bright Digi Gold - Website
- ❖ **Tech Stack :** React js**,** Next Js**,** TypeScript**,** Tailwind CSS, Express Js, Node Js, MongoDB

- ❖ Controlled and displayed API data for 50,000+ users, resulting in a 20% increase in user engagement and satisfaction
- ❖ Handled coupon discounts for 10,000+ transactions, increasing revenue by 15%
- ❖ Utilized Redux for efficient state management, reducing API requests by 40% and improving app performance by 30%. Programmed and optimized pages, including login, dashboard, address, bank details, buy/sell, coupon, orders, locker, and logout, improving user retention by 25%.
- ❖ Oversaw data from Redux with TypeScript, UseEffect, UseState, and improving data accuracy and efficiency. Coded login, dashboard, transactions, total users, and total orders pages with a 95% acceptance rate and increasing user satisfaction by 40%

[LINK] Software Developer(SD) - TestOfire Technologies **|** July 2023 - Present
- ❖ **Tech Stack :** React js**,** Next Js**,** TypeScript**,** Tailwind CSS, React Native, Express Js, Node Js, MongoDB

- ❖ Designed and deployed a user-friendly interface, improving user engagement and satisfaction.
- ❖ Integrated third-party APIs for payment processing, analytics, and communication, ensuring seamless data flow and interoperability.
- ❖ Enhanced system performance and reliability through code optimization and robust security measures.
- ❖ Developed a Next.js / React website utilizing modern technologies for a coaching management system, enhancing user experience and functionality..
- ❖ Enabled seamless user experiences by ensuring immediate updates from the coaching app to the student app, enhancing communication and collaboration efficiency.
- ❖ Created a mobile app in React Native for a student management system, improving accessibility and engagement.
